

Bachelor thesis “Klíč – Prague 11 township herald from 1993 to 2008” is focused on a local printed herald issued by the township of Prague 11. The list has been published since 1993 and it contains a variety of information provided by the local town hall who is also an issuer of the list. Using a quantitative analysis a representative sample from years 1993 to 2008 was researched. Main goal of the research was to find out how the list evolves and on which scale the list informs about selected topics. The bachelor thesis describes local heralds overall, one chapter is specifically dedicated to the history of local printed heralds in Prague. Thesis also mentions and compares local heralds of other Prague townships neighboring Prague 11.
